CAREER SUMMARY

I am a cybersecurity professional with 4+ years of experience in offensive security, specializing in web, API, mobile, and network penetration testing. Proven track record of delivering enterprise-grade assessments for global clients at a Big Four firm, with hands-on expertise in red team operations and Active Directory security. Holds OSCP, eWPTX, and CRTP certifications, demonstrating commitment to continuous skill development.

TECHNICAL SKILLS & EXPERTISE

Web Application Pentesting | API Security Pentesting | Mobile Application Security (Android & IOS) | Network Penetration Testing | Active Directory | Red Team Operations | OSINT & Recon | OWASP Top 10 | Vulnerability Assessment | Privilege Escalation | Lateral Movement | Phishing Infrastructure | CI/CD Pipeline Security | Linux & Windows Hardening | Technical Report Writing | Risk Assessment & Remediation

TOOLS & TECHNOLOGIES

Network Security ~ Nmap | Naabu | Wireshark | NXC / CME
Vulnerability scanning & Exploitation ~ Subfinder | Assetfinder | Httpx | Nikto | Nuclei | SqlMap | Metasploit | OSINT
Web Security ~ Wappalyzer | Browser's extensions | Developer Tools | Burp Suite & extensions | FUFF / Dirsearch
API Security ~ Postman | Insomnia | Arjun | Burp Suite
Mobile Security ~ MobSF | Frida | Objection | Checkra1n | ABD | JDK Toolkit
Active Directory ~ Mimikatz | Rubeus | Bloodhound / Sharphound / Bloodhound-python | PingCastle | Certify / Certipy
Red Team ~ Evilginx | Gophish | Social Engineering Attacks

PROFESSIONAL EXPERIENCE

SENIOR (2) SECURITY CONSULTANT | EY GDS | Noida *Oct 2024 – Present*

Big Four professional services firm

- Conduct network, web application (black-box & grey-box), and API penetration tests across large-scale enterprise environments
- Perform asset discovery and OSINT reconnaissance as part of comprehensive attack surface assessments
- Conducted Microsoft 365 and Windows hardening assessments, delivering remediation guidance aligned to enterprise security baselines
- Deliver detailed, client-facing reports meeting Big Four quality and compliance standards across multiple concurrent engagements.

CYBERSECURITY CONSULTANT | Goallsecure | Jaipur *Sep 2023 – Oct 2024*

Cyber-security service-based organization

- Conducted end-to-end penetration tests across web applications, APIs, mobile applications, and Active Directory environments for multiple clients
- Researched and implemented CI/CD pipeline security testing methodologies during low-engagement periods
- Built and operated a red team credential harvesting infrastructure using Evilginx2, Gophish, and Mailgun — including Microsoft 2FA bypass techniques.

SECURITY ENGINEER | Invia | Noida *Nov 2022 – Aug 2023*

Product-based Telecom company

- Conducted API and mobile application security assessments as primary testing focus, identifying vulnerabilities across the company's core product suite
- Performed web application pentests and contributed to early-stage Active Directory security evaluation as the organization began its AD implementation.

PENETRATION TESTER | Xtrude International | Noida *May 2020 – Nov 20X21*

Product-based automobile parts ecommerce company

- Conducted black-box and grey-box web application pentests on the customer-facing platform, identifying critical vulnerabilities and delivering remediation reports
- Performed internal network assessments — enumeration, exploitation, and vulnerability analysis in collaboration with the network architect to drive mitigation.

LANGUAGE INTERPRETATOR | Saburi TLC | Gurgaon *Oct 2018 – Nov 2019*

Japanese antivirus software reseller.

- Provided Japanese-language tech support to clients, assisting with product selection, license key retrieval, and post-purchase troubleshooting.
